

MERCK

# Brighter Analysis

Solvents & Inorganics  
for accurate, brilliant results

The life science business of Merck operates  
as MilliporeSigma in the U.S. and Canada.

# Brighter Analysis

Solvents & Inorganics for accurate, brilliant results

Analytical techniques such as Titration, Chromatography, and Spectroscopy are only as reliable as the quality of solvents and inorganics that you use. Now that the life science business of Merck KGaA, Darmstadt, Germany has brought together the exceptional knowledge, products, and capabilities of Merck Millipore and Sigma-Aldrich, you can trust that your results will have the sensitivity and reliability to shine.

## Brighter Expertise

A global network of R&D, Manufacturing, and Quality Assurance combined with centuries of experience gives you the most up-to-date method development and documentation support for solvents & inorganics.

## Brighter Solutions

Our close cooperation with our customers allows us to develop and support innovative solutions, not just products.

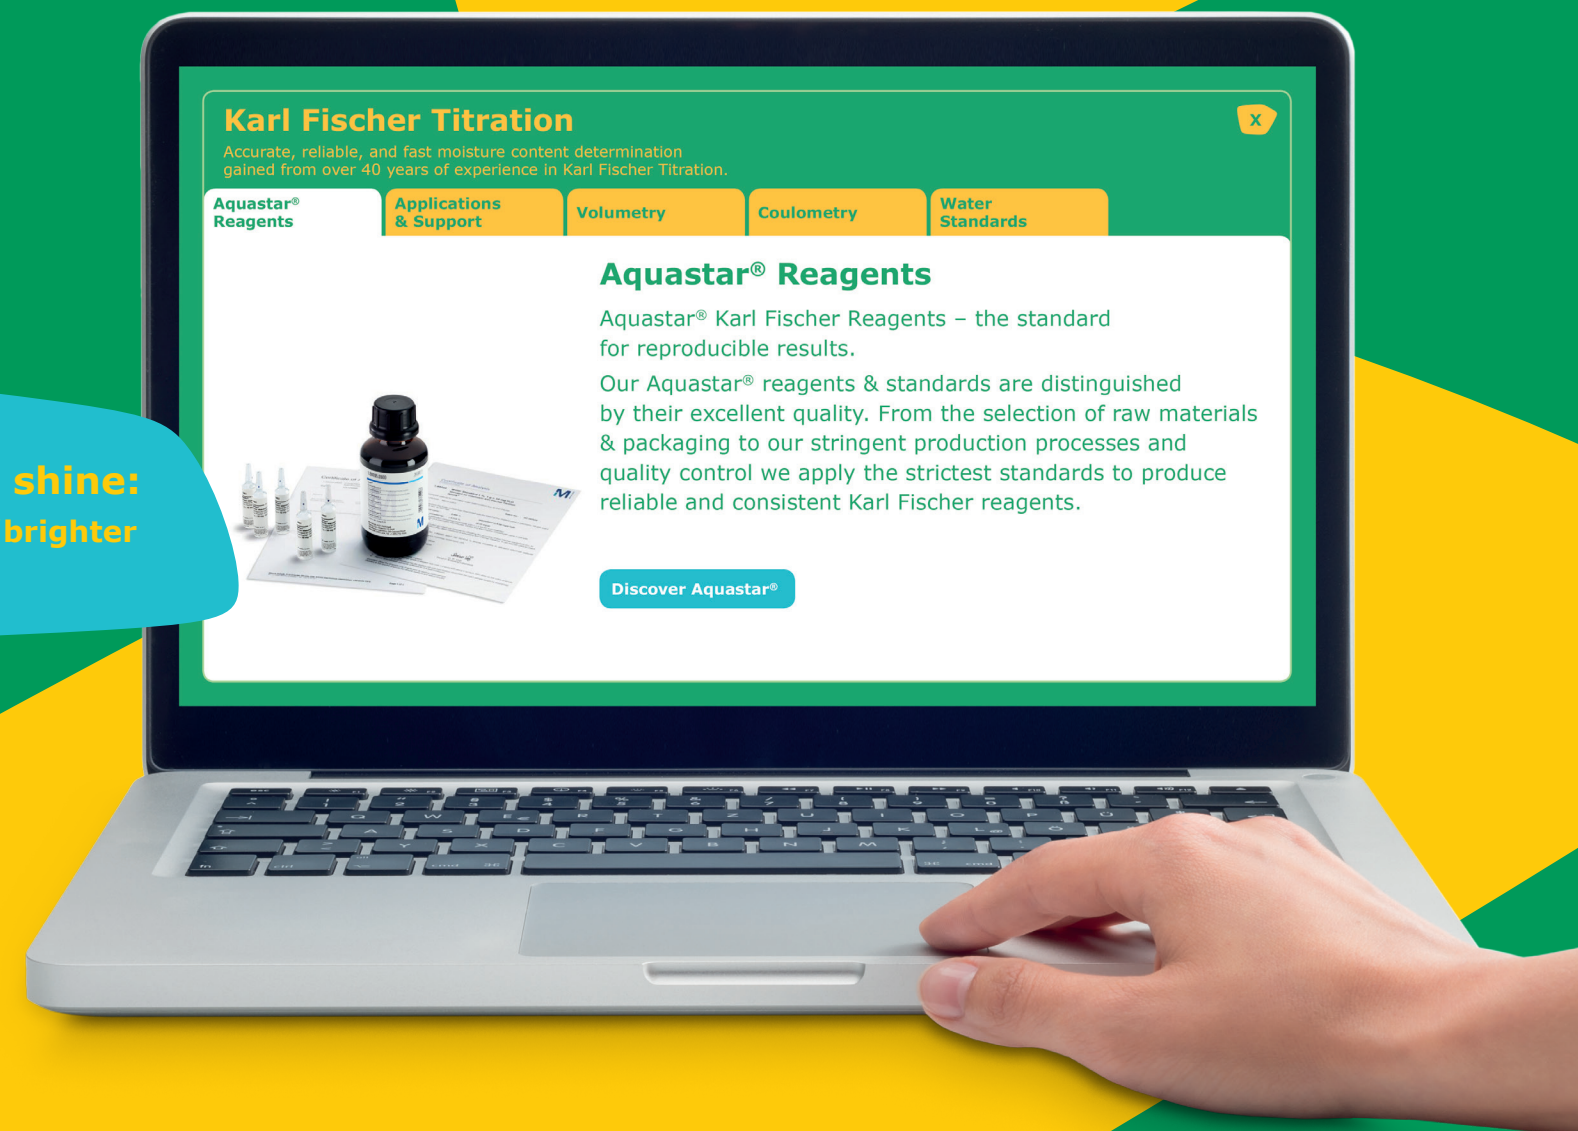

## Brighter Convenience

Easy ordering on Sigma-Aldrich.com and our worldwide distribution organization mean you can find the right solution and have it delivered the way you want it.

Discover our interactive tool and get informed about:
